TASTING NOTES

Maker notes

"Yuzu, found during the cooler months in Northern Asia, particularly Japan, is an aromatic sweet citrus fruit with distinct zesty flavour, often described as a hybrid between a mandarin and a Meyer lemon.

Introduced to South East Asia at the turn of the last century, it brought a unique and exceptional citrus brightness and was soon embraced by the more discerning cocktail drinker.

Based on our 1903 recipe, Yuzu Tonic is the perfect way to bring a touch of the exotic to any mixed drink. We recommend pairing Yuzu Tonic with traditional London dry gins and citrus-forward spirits."
