TASTING NOTES

Brewery Notes

"Following the footsteps of trailblazing older brother Hopwired, Hazewired is a beer set to forge its own path. Packed with a plethora of the best NZ Hops, we've borrowed Nelson Sauvignon and Motueka from Hopwired. An injection of ultra-modern varieties Nectarine and Superdelic makes for one big, juicy Hazy IPA, loaded with notes of tropical mango, candied pineapple and passionfruit. An ode to the past, forged in the present."
