### TASTING NOTES

Bokma Jonge Genever was the first "young" Genever to be distilled from 100% grain and thus gave birth to a completely new Genever category, which at the same time ensured Genever's survival.

Bokma Jonge Genever is based on rye, wheat and corn and is offered in the distinctive square Bokma bottle. Bokma Jonge Genever has a mild taste and offers balanced juniper aromas, paired with a distinctive character.
