TASTING NOTES

Boneface is the creation of brewer Matt Dainty (ex Renaissance and Panhead). Based in the craft beer hub known as Brewtown in Upper Hutt they have quickly gained a reputation for really good food and beer. Boneface's Hoptron APA has a lighter malt base, very fruity and juicy with a well balanced amount of bitterness and comes in at a sessionable 5.5%.

Brewery Notes

"Hoptron is a super fruity American Pale Ale. With a light body and a medium bitterness, this beer tastes of citrus and stone fruit. Hoptron is a beer that will leave you refreshed... Yet wanting more!"
