### TASTING NOTES

Pisco Capel is a young and aromatic spirit produced from the distillation and filtration of Chilean wine. It is produced from selected Muscat grapes grown in the North of Chile, at altitudes of around 2000 meters above sea level. This unique terrior counts on over 350 days of sun a year and crystal clear waters that flow through the Andes Mountains.

#### Distillery notes

"A quality product made from the combination of double distilled alcohol to create a pisco with a great character, elegant and complex. The amber colour of American oak, paired with the exquisite aroma of our fine grapes, achieve a perfect harmony."
