TASTING NOTES

drinksbiz Magazine, January 2019

"The Finlandia brand was established in 1970 by Finland's state-owned alcoholic beverage company Alko. Finlandia vodka is distilled in the village of Koskenkorva in Finland's west, and then blended with glacial water in the village of Rajamäki, north of Helsinki.

Finlandia is made using barley grown in the country's north, where it ripens during the Finnish summer - a time when the sun doesn't set for 72 days, known as the 'Midnight Sun'. After distillation it is blended with glacial spring water. Finlandia has a dry, light and smooth taste with a clean finish. It is also available in Cranberry, Mango, Lime and Grapefruit variants."
