TASTING NOTES

Brewery Notes

"We're back with East Coast brewing legends Trillium for an all new collaborative celebration of hop growing terroir. This time we travel to Oregon's majestic Willamette Valley with hand selected hops from Coleman's Alluvial Farm. In proper Valley tradition, Willamette boasts a hop free boil and massive dry hop addition of Strata, Luminosa and Audacia, creating a lusciously juicy hazy homage to the unique character of America's North West."

Michael Donaldson, drinksbiz Magazine October November 2023

"A collaboration with American brewers Trillium from Boston, this big double IPA focuses on hops from the other side of the country in Oregon's majestic Willamette Valley. Dry hopped with Strata, Luminosa and Audacia hops, this drop is a lusciously juicy hazy homage to the unique character of America's North West."
