TASTING NOTES

Brewery notes

"From our 2020 Hāpi Sessions - a series of 'pen pal' collaborations with breweries at the top of their game, each beer showcasing a different hop forward style in a playful 'freestyle' interpretation of one of the beers that helped to make each brewery famous. Orange County cool kids Green Cheek, riff on their 'California IPA' style, breathing fresh life and fresh hops into the West Coast classic. A super light, bright malt base supports clean bitterness and huge waves of US Mosaic, Strata and harvest fresh Nelson Sauvignon from Freestyle hop farm."
