TASTING NOTES

A family-owned gin distilling business that traces its roots back to London in the 1860s and makes the Haymans the only family of original English gin makers still distilling today.

Wild hand-picked sloe berries, a type of wild plum, are handpicked in the Autumn after the first frosts from the Blackthorn Tree then steeped for several months with Hayman's gin before being blended with natural sugar, the result is a rich red liqueur with a smooth, bitter sweet fruit flavour.

drinksbiz Magazine, October / November 2023

"Hayman's version of this British classic has intense plummy aromas, a hint of almond and delicious fruit flavours. A complex, warming finish."
