### TASTING NOTES

McLeod's is an institution in Waipu, Northland. Geoff and Clayton Gwynne purchased the Waipu Pizza Barn in 2003 renaming it McLeod's in a nod to the Scottish heritage of the region. They then decided they needed some decent beer to serve up and in 2014 they began brewing their own. The rest is, as they say, history and now McLeod's are one of the best craft brewers around and the pizzas are still great!

#### Brewery notes

"802 is BACK! And this one is a stellar blend of Australian & NZ hops including new Aussie varietal - Eclipse - stepping up like US Citra with full, bright citrus and light spice. We paired it with a low alpha NZ hop, Wai-iti, so this brew is loaded with fresh peach and apricot notes, balanced bitterness and a fresh as finish. Remember: always drink fresh & be rewarded!"
