TASTING NOTES

Septima is widely recognised as one of Argentina's top Wineries. The Gran Reserva has already won many awards and reflects their ability to produce quality wines. From the best grapes from their best vineyards, this is a wine not to be missed.

Winery notes (2023 Vintage)

"It is a Malbec, Cabernet Sauvignon and Tannat blend which contains much more than three vines: it is composed of almost one hundred components from different areas of Mendoza, vines, soil types, and degrees of ripeness. It is a wine of unique personality and character achieved by means of a thorough selection of the varieties that compose it. This is the blend with the house imprint, which evidences almost five centuries of winemaking experience at the international level. Elegance, complexity and aging capacity are the cornerstones that define this blend with an aging potential of over 10 years."
