TASTING NOTES

For this, "the botanist", artisanal islay gin they use nine of the classic gin aromatics – orris root, cassia bark, coriander seed, etc – and augment these with a heady harvest of 22 local botanicals, hand-picked by their expert foraging team from the windswept hills, peat bogs and atlantic shores of the hebridean island of islay. A dry style gin with plenty citrus flavours, floral notes and fresh spices.

drinksbiz Magazine, October 2020

"The botanical heritage of Islay, the southernmost island of Scotland's Inner Hebrides, is the focus of this gin, in which 22 local botanicals (including tansy, hawthorn and bog myrtle) are added to nine classic gin aromatics. The gin is rich, intense and full-bodied yet smooth, with complex floral aromas."
