TASTING NOTES

New Zealand's only alien craft beer. Made in Halswell, Canterbury. There's a story unfolding one can at a time...

Brewery notes

"An American style amber coloured, hop-forward IPA. Out-of-this-world flavour is about to enter the atmosphere via your face hole, earthling... landing a true USA classic with a great body and a little something extra-terrestrial under the bonnet. 6.2% Available in 2, 4 and 6 packs."
