TASTING NOTES

Brewery notes

"At Thief, we brew beers that pack an unapologetic punch. Perched in the fertile valleys of Banks Peninsula, our brewery has developed over years of yarns with the misfits and maladjusted who share a passion for bold and hoppy craft brews. We live where we brew, and have a strong focus on local and sustainable brewing - our waste is processed on-site, reducing our carbon footprint, and returning nutrients to land to support upcoming biodiversity enhancement. Our brewers really know their stuff, and we can't wait to share our bold and beautiful brews with the world.

Introducing our latest release! Snuggletooth is absolutely bursting with tropical fruit aroma! This American hazy showcases an intoxicating blend of ripe passionfruit, juicy peach and zesty citrus from nectarin, citra and mosaic hops."
