### TASTING NOTES

An English craft distilling company specialising in small-batch artisan gins. Warner Edwards operates from a 200-year-old barn on Falls Farm in the village of Harrington, Northamptonshire. It uses the farm's natural spring water in its spirits.

#### Distillery notes

"Made with hedgerow fruits, one third of this bottle is fresh raspberries, blackberries and our hand-picked hedgerow elderflower.

Inspired by our home on Falls Farm, this pink gin has been crafted to embody the bounty of the British countryside, with fresh raspberry and blackberry juice in every bottle, and hand-picked elderflower from our farm hedgerows

This gin tells the story of our countryside heritage and farming traditions over centuries, and, for many holds memories of foraging on country walks.

Beautiful thick hedgerows, sprouting low to the ground, provide a home for some of our best loved British wildlife, forage for pollinators, and corridors connecting wildlife populations.

Due to the intensification of farming over the last 100 years and a lack of awareness, we have seen a steep decline in hedgerows across the country - a vital habitat for wildlife. The hard work of British farmers and conservation groups has helped to slow this decline, and the future for our hedgerows is starting to look brighter. More work is needed to restore and manage existing hedgerows in order to safeguard the estimated 47 species under threat.

Nose: The nose bursts with ripe, juicy raspberries and home-cooked jam. Hints of bramble vines add depth and spice.

Palate: Vibrant raspberry coulis covers the palate and melds with fresh, tart blackberries and juniper.

Finish: Elderflower and blackcurrant combine on the finish to give a soft and lingering zing."

## **drinksbiz Magazine, October 2020**

"A gin inspired by the farm hedgerows around Warner's historic farm surrounds in Northamptonshire. Each bottle contains one-third fresh raspberries, blackberries and hand-picked hedgerow elderflowers. It's a jammy, vibrant gin with initial juniper and coriander that gives way to the sweet flavours of the hedgerow fruits."
